ALUEXPO; More Than a Trade Fair...

Why ALUEXPO?

With the increasing demand for light and durable materials all over the world, Aluminium has started to be used more and more every day. This change paved the way for the rapid growth and development of aluminium production and technology industries.

In this developing field, ALUEXPO Fair, which has been the most effective platform where all new products and technologies can be followed closely since 2009, has grown every year and has become the indispensable platform of the global aluminium industry.

You must take your place at ALUEXPO to take an active role in the aluminium industry, where production capacity is constantly increasing and investments are growing!

The Success of 2022 Fair

Exhibitors

348 Exhibitors in total,
145 internationals from
29 countries and

11th International Aluminium Symposium

11th International Aluminium Symposium will be jointly organized by Turkish Aluminium Industrialists Association (TALSAD), TUBITAK Marmara Research Center and METEM-UCTEA Chamber of Metallurgical and Materials Engineers's Training Center on 12-13 October in Istanbul.

The symposium will take place at the same place and time with the ALUEXPO 8th International Aluminium Technologies, Machinery and Products Trade Fair being organized by Hannover-Messe Ankiros Fairs.

11th International Aluminium Symposium aims to bring together aluminium industry and the academic world on the same platform and to share scientific and technological developments will shape the industry in an international environment in all its dimensions. The objective of this symposium is to inform participants about the recent developments and provide a vision for the future of Turkey's aluminium industry.
