IN ACCORDANCE WITH THE LAW NO.5174

16 - 18 MARCH 2022

ISTANBUL EXPO CENTER

“ALL ENERGY
COMPONENTS IN
ONE EVENT”

Dear Valuable Representatives of Our Energy Market,

Having made 95 billion dollars investment, including privatization tenders in the last 16 years and having largely completed the first stage of the growth process, our energy market has now entered the development and maturation process. This process also commenced a process of change and transformation which will ensure financial sustainability, increase liquidity and depth and give further momentum to investments.

Having completed the first stage of the growth process, the Turkish energy market has become the tenth largest energy market of OECD (Organization for Economic Co-operation and Development). In terms of size, the electricity market ranked the 4th and the natural gas market ranked the 3rd. The electricity market made about 36 billion dollars contribution to GNP with about 25 billion dollars turnover on an annual basis and became one of the largest value chains in Turkey.

Located perhaps in the warmest geography of the world energy market, Turkey is expected to increase its regional trade opportunities, enlarge its energy industry with new investments and integrate technological transformation to its market in the short term.

In this context, as ICCI International Energy - Environment Fair and Conference, we concentrate our efforts to create an efficient, effective, reputable and high quality communication and event platform and maintain the contribution that we have made to the last 29 years of this growth and development process.

We successfully realized our event, which we planned to do physically in 2020, on the online platform under the name of ICCI DIGITAL due to the pandemic that unexpectedly affected the whole world. As the first energy event held in digital environment after the pandemic, we reached 3,700 audience with the participation of our Minister of Energy and Natural Resources, Mr. Fatih Dönmez, with nearly 100 speakers and 8 high-level invited speakers.

We are proud to share with you the joy and excitement of setting the calendar of 2022 in advance for our exhibition, which combines all the elements in the market and our conference, which focuses on intellectual content, powered by the contributions of our deep experience on a global scale and our knowledge of the trends in the world energy market.

Our 29th event, **ICCI 2022 International Energy - Environment Fair and Conference** will take place in **Istanbul Expo Center** on **March 16th – 18th, 2022**. In 2019 ICCI organized with ‘change and transformation in the energy market’ as the theme, having hosted over 15,000 visitors from 35 countries this year, ICCI will take place with ‘Energy Industry after Pandemic’ as the theme next year and will continue to create value for you with surprising innovations.

Creating great synergy in the energy market with a new vision every year, we’ll be happy and it will be an honor to see you in ICCI 2022.

With Sincere Regards,

Feraye Gürel

General Manager, Sektorel Fuarcilik, Inc.

THEME AREAS AND SUB TOPICS

NEW TRENDS IN POWER GENERATION

- Gas Turbines and Reciprocating Engines
- Waste to Energy – a Practical Solution to Large Cities
- Biomass – Gasification and Incineration Approaches
- PC and CFB Combustion Boilers
- Coal – Advanced Technologies to Reduce Environmental Effects
- Natural Gas: New International Pipelines with TANAP and Turkish Stream, Storage Increasing LNG Terminals
- A new market: FSRU's
- HRSGs & BOP
- Hydro Plants and Water Storage – Basis to System Balance
- Is Pump Storage Feasible for Turkey ?
- Wind and Solar – Booming around the World
- New Trends in Wind Turbines – Larger Scale Turbines, Improved Blade and Tower Designs
- Turkish Equipment Manufacturers for Wind and Solar systems
- Solar – Costs are Reducing while Efficiency is Increasing; When will the Grid Parity Satisfy the Economics?
- Energy Storage Technologies – Small and Large Scale Storage Applications
- Hybrid Solutions
- Planning the Flexible Generation Operations
- Future of Nuclear power as Base Loads
- Battery Technologies

DIGITALIZATION & DATA

- Artificial Intelligence (AI)
- Cybersecurity
- Grid Management Automation Solutions
- Plant Digitalization, Automation & Controls
- Real Time Data Technology and Analysis

DISTRUBUTED ELECTRICITY GENERATION RESOURCES

- Distributed Energy Resources Management Systems (DERMS)
- Electric Vehicles (EV): Charging Infrastructure and Storage Capabilities
- Electricity Generators' and Distributors' Role in Smart Cities

- Energy Storage at Homes and Commercial Places
- Heating, Cooling and Cogeneration System Integration
- Small Scale Renewables: Technologies, Project Development and Grid Integration
- Solar Roof-Top Applications

ENVIRONMENTAL ISSUES

- NOx, SOx and Particle emissions: Control Strategies and Technologies
- Strategies and Technologies to Reduce Water Usage
- Environmental Adaptation of Growing Renewable Power
- Weather & Climate Issues

ASSET MANAGEMENT & OPTIMIZATION

- Asset Optimization and New Project Development
- Asset Management, Well Planned Maintenance Programs
- Data Driven O & M Strategies
- Decommissioning, Re-location and Re-purposing
- Digitalization of Assets (Grids, Conventional or Renewable Plants)
- Grid Architecture Repowering and Reinforcement
- Life Extension and Refurbishments
- Disaster Planning
- Workforce Management & Optimization

CUSTOMER STRATEGIES TECHNOLOGIES & ADVANCED METERING INFRASTRUCTURE

- Behind The Meter Strategies
- Energy Management
- Consumer Engagement and Management
- Energy Efficiency Programs
- Internet of Things
- Products and Energy Services
- Prosumers
- Smart Buildings and Smart Cities
- Understanding of Turkish Consumer Tariffs and Purchasing Power From The Liberal Market
- Advanced Customer Services, Billing and Payment Systems

SMART GRID & SMART INFRASTRUCTURE

- Advanced Distribution Management Systems
- Communication and Network Technologies
- Energy Storage and the Grid
- Grid Planning Strategies – Real-Life Examples
- Grid's Role in Security of Supply
- HV Infrastructure and Interconnectors
- Integrating Centralized and Decentralized Energy into the Grid Operating the Green Grid

ENERGY STRATEGIES TURKEY

- Policy and Regulatory Issues (2030 Climate & Energy Framework, Energy Roadmap 2050)
- Paris Agreement (COP21)

- Tariffs and Incentives for Renewable Energy Development-(feed-in tariffs beyond 2020-YEKDEM)
- Capacity Markets and other Mechanisms
- Regulations for hybrid power plants
- Future of Unlicensed Power Plants – what will happen after 10th year of operation?
- Financing Infrastructure Investments: How strong is the local financing sector?
- Mergers and Acquisition Activities
- Optimized Power Generation
- Sector horizontal and vertical Coupling
- Offering Shares to “Borsa Istanbul”
- Local Manufacturing of power plant equipment: Which manufacturing technologies are expected to be localized resulting from the executed wind and solar tenders. What is the future tenders driving local manufacturing?
- Women in Energy Sector

National Assembly

PROTOKOL STAND VISITS

ICCI 2019 EXHIBITOR PROFILE

Tuna KERMAN

Nordex Group Sales Manager

It's our 10th year in ICCI this year. We attend every year. As a matter of fact, Nordex doesn't attend any other exhibition. We continue to attend ICCI with pleasure. The event is becoming more international every year. In ICCI, we get the opportunity to meet our sub-suppliers, our investors and people from other organizations. The event reinforced this with beautiful conferences. There were very good speakers and sessions this year in particular. This makes us happy. We began to see things from a different set of perspectives.

Ali AYDIN

Ülke Energy General Manager

We have been attending this fair for 4 years. We saw an improvement in our customer network and in the benefits of the event for us each year. We got the maximum benefit in terms of our brand publicity and in terms of being able to deliver our services to end users. A serious number of visitors come from abroad. Currently we see an overall attendance from Europe, but we also met visitors from Pakistan, Azerbaijan, Romania and many African countries. Being able to reach the companies here who need services through this exhibition is great. Currently there is no organization or social status that brings together this many stakeholders in the industry. Hence, it's the major and only exhibition in Turkey.

Ebru ÇIÇEKYURT

Siemens Gamesa General Manager

We have been attending ICCI for 15 - 16 years. We have benefited a lot from the event. It makes great contribution for us to meet the stakeholders in the industry, exchange opinions and keep up to date with the developments. We get the chance to meet all stakeholders, particularly investors, our customers, leads, suppliers and business partners. We are planning and considering to take part in ICCI again next year as Siemens Gamesa.

- Circuit Breakers
- Power Line Carrier
- Transformers
- Underground Distribution
- Wiring & Cable
- Arresters
- Bushings
- Fault Detectors
- High-Voltage Direct Current (HVDC)
- Phase Convertors
- Simulators, Transmission
- Tapchanger Controls
- Telemetry Controls
- Temperature Controls

COMMUNICATION

- Antennas
- Broadband Over Powerline Cable
- Cellular (3G, 4,5G)
- Microwave Communication Equipments
- Modems Multiplexers
- Fiber Optical Communications
- Satellite
- Signal Interference Detectors
- Voice Processing Systems, Communication
- Wide-Area Network (WAN) Wi-Fi

DISTRIBUTION & SUBSTATION AUTOMATION

- AC/DC, DC/AC, DC/DC Convertors
- Arresters
- Batteries
- Bushings
- Circuit Breakers
- Data Loggers & Analyses

- Dispatch Systems, Fault Detectors & Locators
- Harmonic Measurement Equipment
- Infrared Detectors
- Leak Detectors
- Load Management Systems
- Outage Management Systems
- Phase Convertors
- Protective Relays, Distribution
- Automation
- Uninterruptible Power Supply

GEOGRAPHIC INFORMATION SYSTEMS (GIS)

- Crew Callout Services
- Field Inventory Services
- Global Positioning Systems
- Maps / Mapping Services
- Mobile Solutions

HARDWARE & EQUIPMENT

- Clamps
- Deadends
- High-Temperature Superconducting Cable
- Mobile Power Supply / Generator Rental
- Poles

INSTRUMENTS CONTROL

- Data Acquisition, Storage & Transmission
- Safety Instrumented Systems (SIS)

CUSTOMER STRATEGIES TECHNOLOGIES

- Energy Efficiency
- Home Automation
- Mobile Apps

METERING

- Automatic Metering Systems
- Flow Measurement Meters
- Phase Meters
- Power Factor Meters

TEST & MEASUREMENT EQUIPMENT

- Cable Testing / Maintenance
- Instrument Calibration Services

TRAINING

- Simulation Products / Services
- E-Learning Platforms / Software / Cloud Solutions

TRANSPORTATION

- Electric Vehicles

SPONSORSHIP OPPORTUNITIES

Badge and Lanyard Sponsorship

All visitors, company representatives, speakers, press and chairpersons, who attended the Conference and Fair, will be given badges which includes the sponsor's logo.

Registration Sponsorship

The sponsor's logo will be displayed on the registration desks and backdrops in the visitor entrance.

Visitor & VIP Bag Sponsorship

All visitors, company representatives, speakers, press and chairpersons, who attended the Conference and Fair, will be given a bag with a printed sponsor logo. There will be the brochures of the sponsor company in the bag.

9th ICCI Energy Awards and Exhibitor Gala Dinner Sponsorship:

Energy Awards will be given in the 1st day of 29th International Energy and Environment Fair and Conference. Award ceremony will be organized with a special 300-seated feast ile yapılacaktır.

Golden & Silver Sponsorships

The sponsor logo will be in all printed materials and fair brandings in different sizes

Conference Program Book Sponsorship

A guide book which will be distributed to every visitors and includes 3 day conference program and the fair plan.

Conference Hall Sponsorship

1200 chairs will be covered with sponsor logo in 4 conference halls during 3 days.

Proceedings CD and Fair Catalogue

This CD contains all the information presented in the conference programs and all the information of the participating companies. The CD will be distributed from sponsor companies' stand.

BOOTH OPTIONS AT ICCI 2020

Participation with special booth design (space only) includes:
Empty exhibition space at requested dimensions

TYPE-A

- Stand construction
- Fascia board with company name
- 1 group socket
- 100 watt lamp for each 3 sqm
- Carpet flooring

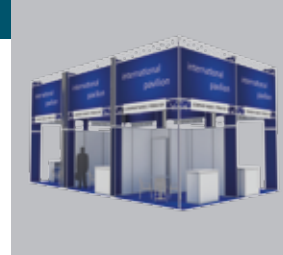

TYPE-B

- Stand construction
- Fascia board with company name
- 1 group socket
- 100 watt lamp for each 3 sqm
- 4 leather chairs
- 1 table
- 1 info desk
- Carpet flooring

TYPE-C

- Stand construction
- Fascia board with company name
- 2 metal lamps with 150 watts
- 1 group socket
- 100 watt lamp for each 3 sqm
- 4 leather chairs
- 1 table
- 1 info desk
- Decorative beech shutters
- Carpet flooring

TYPE-D

- Stand rear and side walls
- Fascia board with company name
- Carpet
- 3 chairs and 1 table
- 1 info desk
- 1m x 1m lockable storage room
- Electrical Socket (Monophase)
- Spotlights - 100 watt lamp per 3qm
- Daily stand cleaning services
- Lounge area with beverage services (Tea, Coffee and Soft Drinks)

ICCI 2022 VENUE

ICCI, ENERGIZING THE SECTOR, AT ITS NEW LOCATION IN 2022

ISTANBUL EXPO CENTER

ICCI 2022, which will be held in the Hall 8 of the renovated halls of Turkey's the biggest fair ground "Istanbul Expo Center", will be the focus of the energy sector.

The fair will be the attraction point for hundreds of thousands visitors from all around the world with its proximity to the airport and surrounding roads, the metro passes through the center, the presence of very large parking areas, landscaping and excellent infrastructure.
