REGISTRATION FEES

	Before 15 July 2022	After 15 July 2022
Full board registration	550 \$	650 \$
Registration without accommodation	350 \$	450 \$
Accompanying person	250 \$	350 \$
Students	200 \$	300 \$
1 day without accommodation	150 \$	250 \$

The fees are for single room. Please look at the website for detailed information.

Services included in the full registration fee:

- ✓ 3 Nights Accommodation
- ✓ Breakfasts
- ✓ Lunches
- ✓ Dinner
- ✓ Welcome Cocktail
- ✓ Gala Dinner
- ✓ Coffee Breaks
- ✓ Conference Materials
- ✓ Fair Ticket
- ✓ Free Wi-Fi
- ✓ Shuttle Service (3 days)

TOPICS

- Mineralogy
- Crushing & Screening
- Grinding & Classification
- Coal Preparation
- Physical Enrichment (Gravity, Magnetic and Electrostatic Separation)
- Surface Chemistry (Fundamental of Flotation, Flotation Chemicals, Flotation Technology)
- Recovery of Fine Particles and Slime
- Recovery of Rare Earth Metals
- Bio- and Hydrometallurgy
- Process and Plant Design
- Process Modelling, Simulation, Inspection
- Pelletizing, Agglomeration and Sintering
- Boron and Trona Beneficiation
- Gold Processing
- Dewatering and Water Management
- Automation in Mineral Processing
- Waste Management
- Environment, Recycling and Social Responsibility

IMPORTANT DATES

- 15/05/2022 : Deadline for submission of abstracts
 15/06/2022 : Notification of abstract acceptance/rejection to authors
 30/09/2022 : Deadline for submission of full paper
 31/10/2022 : Deadline for submission of corrected papers

LANGUAGE

The symposium language is English and Turkish. There will be simultaneous English-Turkish and Turkish-English translations throughout the symposium.

International Mineral Processing Symposium was first held in 1986 and since then it has biennially been organized by the 5 renowned universities in Turkey sequentially. This year, 17th International Mineral Processing Symposium will be jointly hosted by Mineral Processing Engineering Department at Istanbul Technical University and Turkish Mining Development Foundation in Tuyap Exhibition and Congress Center. Moreover, for the first time Mining Turkey 2022 Fair will accompany during the Symposium at the same venue simultaneously.

The symposium will bring together distinguished engineers and scientists specialized in the field as well as leading manufacturers and their representatives to discuss scientific and technical developments and innovations on different platforms. Today, mining industries face constantly increasing production costs and difficult to process complex ores thus the symposium will provide a ground where the development of much more efficient processes, sustainable operations, effective usage of resources, technical and scientific requirements are discussed.

The sessions in the symposium will include research subjects related to ore characterization, analytical techniques, comminution and size classification, physical-physicochemical-chemical processes, waste disposal and management, recycling, secondary recovery, automation, modelling, simulation and other connected fields.

It is foreseen that the synergy of concurrently organized activities will attract much more national and international participants including academicians, state and private sector executives and representatives of manufacturing companies.

Our objective shall be to organize a meeting that will satisfy all delegates and participants by scientific, technical and social aspects. We would like to ensure you that all precautions will be taken for your safety in case pandemic conditions still prevail.

The Executive Committee of 17th International Mineral Processing Symposium. Your participation and affirmative contributions shall greatly honor us and we shall be delighted to host you at 17th Mineral Processing Symposium in Istanbul.

Feridun BOYLU, Prof. Dr.
Symposium Chair
